

WHAT WE DO

- **Business Development & Partnership Facilitation**

Enhance long-term value for organizations from client base, markets and partnerships.

- **Project Management**

Pursue streamlined, effective project management for cost saving, timely full life cycle implementation.

- **Strategic Policy & Planning**

Develop policy areas, understand challenges and opportunities, and deliver a consistent and cohesive message both within organizations and externally.

Jessica Graham previously worked as a Senior Advisor to the U.S. State Department, developing an environmental crime program and serving as the Team Leader. She has also worked with the INTERPOL Illicit Markets Sub-Directorate, Environmental Security Programme as a Strategic Policy Advisor to senior leadership facilitating partnership development and managing cross-cutting wildlife trafficking projects.

She is an expert on international policy and nontraditional security threats, including transnational organized crime and wildlife trafficking and serves as a guest lecturer and speaker. With 10 years of dedicated experience working on environmental and security issues, Jessica has worked across the public, private, and non-profit sectors.

JG GLOBAL ADVISORY

Integrated Solutions for a Secure World

WWW.JGGLOBALADVISORY.COM

WHO WE SUPPORT

Private Sector

- Develop the business case for a sustainability agenda.
- Enhance corporate social responsibility efforts institution wide.
- Develop diagnostic tools for institutionalizing sustainability.

Non-Governmental Organizations

- Advise executive leadership to identify and secure funding opportunities to ensure long term impact.
- Manage international projects from design through monitoring and evaluation.
- Conduct research, provide capacity building and training, and support grant and contract proposal writing.

Government

- Serve as a technical advisor on environmental and security projects.
- Provide third party project reviews and evaluations.
- Support law enforcement capacity building and technical assistance.

Philanthropic Organizations

- Translate resources into impact for international environmental projects.
- Provide research and develop resources on theory of change and measuring social impact.
- Partnership identification, facilitation and coordination through a strategic policy and planning approach.

A **global company** that drives sustainable environmental impact, enhances international security, and inspires a mindset of social responsibility by providing integrated solutions for a secure world.

Combat Wildlife Trafficking

Stem Fisheries Crime

Reverse Climate Change

Reduce Deforestation

Enhance International Security
